# ATLANTIC GIRLS HOCKEY FEDERATION

## ABOUT US

In the midst of its second full season, the Atlantic Girls Hockey Federation (AGHF) emerges as a distinguished force in youth girls' hockey development. As a USA Hockey Sanctioned Elite Tier-II Youth Hockey League, AGHF orchestrates engaging games across the Mid-Atlantic region for its dedicated club members and their families. The league is committed to delivering top-notch league games and showcases, creating a specialized experience for its member-owned clubs.

AGHF takes pride in its expansive reach, catering to over 70 teams in the Mid-Atlantic and offering a unique platform for growth and competition. The league currently features girls' hockey programs at Diamond and Platinum divisions, spanning multiple age groups, including 10U, 12U, 14U (Diamond/Platinum), 16U (Diamond/Platinum), and 19U (Diamond/Platinum).

The league stands out with a dedicated full-time professional staff, ensuring a high standard of operations. Live scoring and extensive social media coverage further amplify the league's visibility, making it an attractive option for players, families, and hockey enthusiasts alike.

For those seeking a unique opportunity in girls' hockey, AGHF stands out as a premier choice. The league provides a platform for growth, competition, and exposure in a supportive environment. Whether aspiring to excel in the 10U division or aiming for success at the 19U level, AGHF offers a unique and inclusive experience.

AGHF's commitment to excellence is reflected in its dedication to high-quality league games and showcases, ensuring a competitive and enriching environment for all participants. For girls looking to thrive in the world of youth hockey, the Atlantic Girls Hockey Federation is a truly unique and valuable opportunity.

## GOLD PEAK

### OUR STORY

Gold Peak started with a simple idea: Celebrate the natural goodness of tea. And for us, that's easy, because real brewed tea is all we really brew.

So whether you're kiddie-pooling it in the front yard, piling up a plate at the cookout, or winding down with the fam and a movie, let's grab a glass and enjoy the good things in life.

# **WHAT IS KRACH?**

**What is it?** – KRACH is short for “Ken’s Rating for American College Hockey.” Ken is Ken Butler, a statistician, and the mathematical model he used is known as the Bradley-Terry Rating System.

1. The KRACH rating system is an attempt to combine the performance of each team with the strength of the opposition against which that performance was achieved, and to summarize the result as one number, a “rating”, for each team. The higher the rating, the better the team.
2. KRACH accounts for strength-of-schedule (SOS) as it ranks the teams.
3. KRACH is calculated purely from the results(win/loss/tie) and does not use goals scored or goal differential like myhockeyrankings.
4. Overtime wins count as wins.

**Why we use it rather than points?** – KRACH ratings are used instead of traditional points for the following reason:

1. Teams play an unbalanced schedule, teams will not play all the teams in teams’ age division
  - Teams that play a more difficult schedule would be unfairly punished in the traditional points-based standings
  - KRACH does not put greater emphasis on blowing out teams like myhockeyrankings
2. The aHF offers 2 season structures, full-season and partial season. Using KRACH rather than points earned will allow for fair rankings such that teams playing fewer games are fairly measured within their division

**What is the process for the Federations** – The KRACH algorithm is written in python and consists of a data organization routine and an iterative strength of schedule solver.

1. The algorithm takes the Team win loss data from an excel file output by the GameSheet online scoring platform used to store game data.
2. This data is then organized by division using tags provided by GameSheet.
3. This divisional data is then organized into pairwise comparisons based on wins and losses to feed into the solver.
4. The pairwise team input can be visualized as a matrix with each time represented as a row and wins against other teams in the columns.
